

Tortoise Global Water ESG Fund (TBLU) received a Four Star Overall Morningstar Rating™ among 109 Natural Resources funds (based on a weighted average of the fund's three-, five- and ten-year risk-adjusted return measure, if applicable) as of 9/30/2024.

# Tortoise Global Water ESG Fund (TBLU)

## 3Q 2024 QUARTERLY COMMENTARY

The Tortoise Global Water ESG Fund uses a passive management approach and seeks to track the total return performance of the Tortoise Global Water ESG Index®.

The firm provides research-driven indices that can be used as a realistic basis for exchange-traded products and thought leadership in the universe of essential assets. Indices are intended to fill a void in the market and provide benchmarks and investable asset class universes for use by investment professionals, research analysts and industry executives to analyze relative performance as well as to provide a basis for passively managed exchange-traded products.

**The Tortoise Global Water ESG Fund (TBLU) offers exposure to the otherwise fragmented water industry. We believe that water is perhaps one of the most essential assets and is an area that requires continued investment in the years to come. This fund provides access to water infrastructure, as well as equipment and service companies operating across all aspects of the water value chain, that appear poised to benefit from the expected and much needed investment in rebuilding existing infrastructure, constructing new infrastructure and better managing this vital, but finite resource.**

### Fund performance

The Tortoise Global Water ESG Fund (TBLU) increased by 10.65% on a market price basis and 10.80% on a NAV basis during the third quarter of 2024 ended September 30. This performance compares to the underlying index performance of 10.99%.

### Performance as of 9/30/2024

	3Q 2024	Calendar YTD	1 year	3 year	5 year	Since inception*
TBLU market price	10.65%	15.13%	33.45%	4.97%	11.64%	11.22%
TBLU NAV	10.80%	15.66%	34.23%	5.31%	11.77%	11.29%
Underlying index	10.99%	15.97%	34.66%	5.53%	12.03%	11.63%
S&P 500® Total Return Index	5.89%	22.08%	36.35%	11.91%	15.98%	14.54%

\*The fund commenced operations on 2/14/2017.

Effective 6/15/2018, the fund's investment objective changed to track the net total return performance of the Tortoise Global Water ESG Index<sup>SM</sup>. Prior to 6/15/2018, the fund's investment objective was to track the total return performance of the Tortoise Water Index<sup>®</sup>. Underlying index performance is blended using the Tortoise Water Index<sup>®</sup> from inception to 6/15/2018 and the Tortoise Global Water ESG Index<sup>SM</sup> after 6/15/2018.

**Past performance is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. Returns less than one year are not annualized. NAV prices are used to calculate market price performance prior to the date when the fund first traded. Market performance is determined using the bid/ask midpoint at 4:00pm Eastern time, when the NAV is typically calculated. Market performance does not represent the returns you would receive if you traded shares at other times. For the fund's most recent month end performance, please call (844) TR-INDEX or (844) 874-6339.**

**As stated in the Prospectus, the total annual operating expenses are 0.40%. The adviser has agreed to pay all expenses incurred by the fund except for the advisory fee, interest, taxes, brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions.**

**Index returns are for illustrative purposes only. Unlike the fund return, index return is pre-expenses and taxes. Index performance returns do not reflect any management fees, transaction costs or expenses.**

## Fund attribution

On a segment basis, Pipes, Pumps & Valves, Utilities, Filtration, Treatment & Test, and Agriculture Equipment & Services contributed positively to performance. However, E&C detracted from performance.

Top five contributors	Company type
China Lesso Group Holdings Limited	Pipes, pumps & valves
Pentair PLC	Filtration, treatment & test
Veolia Environnement SA	Utility
Geberit AG	Filtration, treatment & test
Severn Trent PLC	Utility

Montrose Environmental Group Inc	E&C
Core & Main Inc	Pipes, pumps & valves
Stantec Inc	E&C
Aris Water Solutions Inc	Pipes, pumps & valves
Advanced Drainage Systems Inc	Pipes, pumps & valves

## Top 10 holdings (as of 9/30/2024)

1. Stantec Inc	7.2%	6. Energy Recovery Inc.	4.4%
2. Fischer (Georg)-Reg	6.4%	7. Smith (A.O.) Corp.	4.2%
3. China Lesso Group Holdings	5.7%	8. Advanced Drainage Systems Inc.	4.0%
4. Core & Main Inc.	4.5%	9. Aris Water Solutions Inc.	4.0%
5. Guangdong Investment LTD	4.4%	10. Badger Meter Inc.	4.0%

## Portfolio as of 9/30/2024

### By sector<sup>1</sup>

### By geographic exposure

<sup>1</sup>Equipment/services includes pipes, pumps and valves and filtration, treatment and testing. Water infrastructure includes utilities and engineering and construction. Portfolio composition is subject to change due to ongoing management of the fund. References to specific securities or sectors should not be construed as a recommendation by the fund or its advisor. Due to rounding, totals may not equal 100%.

## Disclosures

TIS Advisors is the adviser to the Tortoise Global Water ESG Fund and is a registered investment advisor providing research-driven indices that can be used as a realistic basis for exchange-traded products and thought leadership in the universe of essential assets. Its indices are intended to fill a void in the market and provide benchmarks and investable asset class universes for use by investment professionals, research analysts and industry executives to analyze relative performance as well as to provide a basis for passively managed exchange-traded products. Exchange Traded Concepts, LLC serves as sub-adviser to the Fund.

Impact investing and/or Environmental, Social and Governance (ESG) managers may take into consideration factors beyond traditional financial information to select securities, which could result in relative investment performance deviating from other strategies or broad market benchmarks, depending on whether such sectors or investments are in or out of favor in the market. Further, ESG strategies may rely on certain values-based criteria to eliminate exposures found in similar strategies or broad market benchmarks, which could also result in relative investment performance deviating.

**The fund's investment objective, risks, charges and expenses must be considered carefully before investing. The summary and statutory prospectus contains this and other important information about the fund and may be obtained by calling 844-TR-INDEX (844-874-6339) or visiting [www.tortoiseadvisors.com](http://www.tortoiseadvisors.com). Read it carefully before investing.**

**Shares of exchange-traded funds (ETFs) are not individually redeemable and owners of the shares may acquire those shares from the ETF and tender those shares for redemption to the ETF in Creation Units only, see the ETF prospectus for additional information regarding Creation Units. Investors may purchase or sell ETF shares throughout the day through any brokerage account, which will result in typical brokerage commissions.**

**Investing involves risk. Principal loss is possible. Investment in the water infrastructure and management industry may significantly affect the value of the shares of the fund. Companies in the water industry are subject to environmental considerations, taxes, government regulation, price and supply fluctuations, competition and water conservation influences. Investments in non-U.S. companies (including Canadian issuers) involve risk not ordinarily associated with investments in securities and instruments of U.S. issuers, including risks related to political, social and economic developments abroad, differences between U.S. and foreign regulatory and accounting requirements, tax risk and market practices, as well as fluctuations in foreign currencies. The fund invests in small and mid-cap companies, which involve additional risks such as limited liquidity and greater volatility than larger companies. The fund is not actively managed, and therefore the fund generally will not sell a security due to current or projected underperformance of a security, industry or sector, unless that security is removed from the index or the selling of the security is otherwise required upon a rebalancing of the index. There is no guarantee that the fund will achieve a high degree of correlation to the index and therefore achieve its investment objective. The fund has elected to be, and intends to qualify each year for treatment as, a regulated investment company (RIC). To maintain the fund's qualification for federal income tax treatment as a RIC, the fund must meet certain source-of-income, asset diversification and annual distribution requirements. If for any taxable year the fund fails to qualify for the special federal income tax treatment afforded to RICs, all of the fund's taxable income will be subject to federal income tax at regular corporate rates (without any deduction for distributions to its shareholders) and its income available for distribution will be reduced. Derivatives involve risks different from, and in certain cases, greater than the risks presented by more traditional investments. The fund is non-diversified, meaning it may concentrate its assets in fewer individual holdings than a diversified fund. Therefore, the fund is more exposed to individual stock volatility than a diversified fund.**

The S&P 500<sup>®</sup> Index is an unmanaged, market-value weighted index of stocks that is widely regarded as the standard for measuring large-cap U.S. stock market performance. The Tortoise Water Index<sup>®</sup> is a float-adjusted, modified market capitalization-weighted index comprised of companies that are materially engaged in the water infrastructure or water management industries. Tortoise Global Water ESG Index<sup>SM</sup> and Tortoise Water Index<sup>®</sup> (the "Indices") are the exclusive property of TIS Advisors, which has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Indices. The Indices are not sponsored by S&P Dow Jones Indices or its affiliates or its third party licensors (collectively, "S&P Dow Jones Indices"). Investors must consult their tax advisor or legal counsel for advice and information concerning their particular situation.

© 2024 Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information.

The Morningstar Rating<sup>™</sup> for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds and separate accounts) with at least a three-year history without adjustment for sales load. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive five stars, the next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars, and the bottom 10% receive one star. The Overall Morningstar Rating<sup>™</sup> for a managed product is derived from a weighted average of the performance figures associated with its three-, five- and 10-year (if applicable) Morningstar Rating<sup>™</sup> metrics. The weights are: 100% three-year rating for 36 - 59 months of total returns, 60% five-year rating/40% three-year rating for 60 - 119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. As of 9/30/2024, TBLU was rated against 109 and 103 Natural Resource Funds over the three- and five-year time periods. TBLU received three stars and four stars, respectively, over those periods. Past performance is no guarantee of future results. Nothing contained on this communication constitutes tax, legal or investment advice. Investors must consult their tax advisor or legal counsel for advice and information concerning their particular situation.
